A young couple is shown in a bright, airy room, likely a new home. The woman, with curly hair, is wearing a light blue denim shirt over a white top. The man, with a beard, is wearing a red and grey plaid shirt over a white t-shirt. They are both smiling and embracing each other. In the background, there are white doors and a window with blinds. To the left, there are several cardboard boxes and a wicker basket, suggesting they have just moved in.

Instant savings & going green:

Save up to 80% or more on your annual pool heating, electrical, and chemical costs, just from adding a pool cover! If you Finance your pool cover, the savings from reduced maintenance, solar heating, energy conservation, & elimination of evaporation, in most cases, will exceed your monthly payment!

Safety, peace of mind:

Pool Covers completely cover the water surface making a perfect safety barrier for both children and pets. Fences can be climbed, alarms still allow time in the water, but a pool cover supports the weight of an adult person (only in new condition, but it's not extended playground for kids), and provides more barrier protection than any other pool-safety device.

Other benefits:

Hook-In-System and Track systems available.
Developed & manufactured locally.
Save water, time & electricity.
No algae growth and hardly any dirt.
Even during holidays, your pool stays maintenance free.

Check out the cantilever umbrella benefits:

- No centre pole
- Rotates 360°
- Powder coated aluminium
- All parts replaceable
