### Instant savings & going green:

Save up to 80% or more on your annual pool heating, electrical, and chemical costs, just from adding a pool cover! If you Finance your pool cover, the savings from reduced maintenance, solar heating, energy conservation, & elimination of evaporation, in most cases, will exceed your monthly payment!

### Safety, peace of mind:

Pool Covers completely cover the water surface making a perfect safety barrier for both children and pets. Fences can be climbed, alarms still allow time in the water, but a pool cover supports the weight of an adult person (only in new condition, but it's not extended playground for kids), and provides more barrier protection than any other pool-safety device.

### Other benefits:

Hook-In-System and Track systems available.  
Developed & manufactured locally.  
Save water, time & electricity.  
No algae growth and hardly any dirt.  
Even during holidays, your pool stays maintenance free.

### Check out the cantilever umbrella benefits:

- No centre pole
- Rotates 360°
- Powder coated aluminium
- All parts replaceable
